DETAILED ACTION

This is the first office action for US Application 09/194,839 for a Cylindrical Drum Support Device.

Claim Rejections - 35 USC § 112

The following is a quotation of 35 U.S.C. 112(b):

(B) CONCLUSION.—The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the inventor or a joint inventor regards as the invention.

The following is a quotation of 35 U.S.C. 112 (pre-AIA), second paragraph:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112(b) or 35 U.S.C. 112 (pre-AIA), second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which the inventor or a joint inventor, or for pre-AIA the applicant regards as the invention.

Regarding claim 1, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Regarding claim 1, the phrase "for example" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim *1 recites the limitation "the rotation" in line 5. There is insufficient antecedent basis for this limitation in the claim. Claim 1 also recites the limitation

Art Unit: 3632

"about its of rotation" in line 5. It is assumed that Applicant intends to claim an "axis" of rotation. Claim 1 recites the limitation "the block" in 10. There is insufficient antecedent basis for this limitation in the claim.

Claim 3 recites the limitation "the line" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the tangent to the circle" in lines 2 and 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the point of intersection" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the point of attachment" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 7, line 1, reads, "according to claim". However, Applicant does not specify a claim. For examination purposes, it is assumed the claim is dependent on claim 1

Claim 9 recites the limitation "the intersection of the said pivotal plane and of the pivotal axis" in line 5. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 1-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112(b) or 35 U.S.C. 112 (pre-AIA), 2nd paragraph, set forth in this Office action.

Conclusion
